Marine Life ID Course

Saturday 18th July 2015, 10AM-5PM

Leighton Moss RSPB Reserve

A one day course providing an introduction to the main marine animal and plant groups in the UK, and how to identify them.

Topics will include:

- Seaweeds and shore plants
- Crustacea (crabs and lobsters)
- Fish and vertebrates
- Worms
- Cnidaria (jellyfish and anemones)
- Tunicates
- Echinoderms (starfish)

£10 per person, places limited, so booking essential.

Refreshments are available at Leighton Moss but not included in the price.

Contact secretary@lancashiremcs.org.uk to reserve a place

The MCS is the only charity in the UK dedicated to conserving the seas around us, and the unique and interesting species that live in them
